Herten, 17 March 2020

Dear Business Partner,

In the light of the current Covid-19 outbreak situation we want to inform you about the measures we have taken.

We closely follow the advices of the different global governments and monitor the possible impact for our employees and the global deliveries of our dairy products.

For the moment we have advised our staff to not go on business travels and we will not allow visitors to enter our offices.

Most of our employees will work from home. Staff members with flu-like symptoms will stay at home (in quarantine) and are advised to seek medical advice.

All Numidians will follow the guidelines of the World Health Organization (WHO) regarding hygiene and frequent and thorough hand washing.

They will use videoconferencing and Skype and phone to stay connected with the Numidia team and with you.

As we are in unprecedented times we all have to help each other to come through this period. We value your cooperation on this and you can count on us.

If you have any questions or remarks, please contact your commercial or operations contact person in our organization.

Best Regards,

Han van Hagen
Managing Director
